

L&T Heavy Engineering Wins National Award for Export Excellence

L&T Heavy Engineering has won the prestigious National Award for Export Excellence, presented by the Engineering Export Promotion Council of India (EEPC).

Heavy Engineering was rated star performer in the Large Enterprise category for its export performance in 2010-11. This is the fourth time that L&T has received this award.

Mr. Y.S. Trivedi, Executive Vice President (Heavy Engineering), received the award from Mr. Milan Hovorka, Deputy Minister, Ministry of Industry & Trade of the Czech Republic, at a function in Mumbai on March 23, 2012.

Heavy Engineering has been registering significant export performance since the mid-90s, and has supplied critical equipment to more than thirty countries across the globe.

EEPC was founded in 1955 by the Ministry of Commerce. Headquartered in Kolkata, it is the largest export promotion council in the country with over 12,000 members.
