Nabha Power Wins International Recognition for Global Leadership in Clean Coal Technologies

Nabha Power Limited (NPL) received global recognition for High-Efficiency, Sustainability Leadership and Innovation during the fifth Annual Peabody Global Clean Coal Leadership Awards. The awards were presented at POWER-GEN International in Orlando, Florida, USA, held between December 4-6, 2018.

NPL achieved the best heat rate and auxiliary power consumption in India's 660-megawatt class for FY 2017-2018 along with 100 per cent dry fly ash utilization and zero liquid discharge.

Overall the award recognises outstanding examples of leadership and innovation among coal-fired generating plants and projects, with representations from China, India and the United States.

The Peabody Global Clean Coal Leadership Awards programme was established in 2014 to showcase coal-fired power plants for top environmental performance, highlight innovative leadership and improve awareness about the benefits of clean coal technologies. Peabody is the leading global pure-play coal company and a member of the Fortune 500, serving power and steel customers in more than 25 countries on six continents.

NPL operates 2x700 MW Coal based Super Thermal Power plant at Rajpura Punjab. NPLs 100% capacity is tied through a 25 Year Power Purchase Agreement with Punjab State Power Corporation Limited.
