L&T inaugurates 'A.M. Naik Tower' at Powai

Mumbai, December 21, 2020: Larsen & Toubro, India's leading engineering, procurement and construction projects, manufacturing, defence and services conglomerate, inaugurated 'A.M. Naik Tower', the corporate office tower located at its Powai campus. A smart, digitally advanced, green corporate office tower dedicated on the occasion of completing 55 years of service to the company by L&T Group Chairman Mr. A.M. Naik.

The corporate office tower is one of the most advanced, digitally smart and green building in India that provides choicest modern amenities for its employees and visitors. With a total built-up area of 1.03 million sqft, it will be hosting 4,500 group employees availing modern amenities such as 300-seater hi-tech multipurpose hall, 800-seater food court, well-equipped gymnasium, digital library, immersive training rooms and a special lounge.

On this momentous occasion, Mr. S.N. Subrahmanyan, CEO & MD, Larsen & Toubro, said: *"It is our fortune to have the visionary leadership of Mr. A.M. Naik, who have guided the company and its people to always achieve the unachievable. This newly inaugurated 'A.M. Naik Tower' is a befitting acknowledgement of his stupendous 55 years of service and contributions to the group."*

"The tower will pave the way to bring in further synergies across businesses, group companies and corporate functions by hosting multiple group offices at one location," added Mr. Subrahmanyan.

Located at the junction of Saki Vihar road and Jogeshwari Vikhroli Link Road (JVLR) in the central part of Mumbai, the A.M. Naik Tower is a 15 storey building with two parking levels having about 800 car parking bays and exquisite entrance lobby. It is built with one of the unique and advanced construction technologies by using composite steel structure with concrete-filled tubes resulting in faster construction, larger carpet area and low manpower dependency during the construction process.

This new tower possesses several smart features including integrated security management system with the command and control centre, an IOT-based building management system, a mobile app for employees and facility managers, smart workplaces, digital ceilings with occupancy-based heating, ventilation, air conditioning and lighting control, smart cafeteria management, smart vertical transportation and smart parking management.

Background:

Larsen & Toubro is an Indian multinational engaged in engineering, procurement and construction projects, manufacturing, defence and services with over USD 21 billion

in revenue. It operates in over 30 countries worldwide. A strong, customer-focused approach and the constant quest for top class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.
