L&T Technology Services Wins Frost & Sullivan Excellence Award

L&T Technology Services has won the prestigious Frost & Sullivan (F&S) 'Excellence in Engineering Services Award 2014'. The award cited L&T Technology Services' deployment of next generation technologies for innovation as well as its demonstrated record in boosting customer value in engineering design. The award presented to L&T Technology Services on September 23, 2014 at a function attended by peer group professionals in the engineering and IT space, consultants, analysts and leading industry users.

The F&S Excellence Awards jury seeks out engineering and design services companies across regional and global markets. Contenders need to have demonstrated outstanding achievement in areas such as leadership, technological innovation, customer service and strategic product development.

L&T Technology Services - a wholly owned subsidiary of L&T - is an ISO 9001:2008 and a CMMI Level 5 certified organization. It offers engineering design services to a host of global companies including Sony, GE, Boeing, and Procter & Gamble.
