L&T Wins (Significant*) Order for Heavy Civil Infrastructure Business

Mumbai, June 09, 2025: The Heavy Civil Infrastructure (HCI) business vertical of Larsen & Toubro has secured a significant order from JSW Energy for the execution of Bhavali Pumped Storage Project (PSP) in the state of Maharashtra.

The project is strategically located across the Nashik and Thane districts of Maharashtra and is designed to have a total installed capacity of 1500 MW, comprising various small units.

The scope of work encompasses complete execution of all civil works related to the project, including construction of approach roads, upper and lower reservoirs, water conductor system, pressure tunnels, and the underground powerhouse unit.

The order reaffirms L&T's proven capabilities in delivering complex hydroelectric infrastructure and reinforces its position as a key enabler in India's quest for renewable energy.

Pumped storage projects like the Bhavali PSP are pivotal to grid stability, particularly in the context of growing integration of variable renewable energy sources.

Background:

Larsen & Toubro is a USD 30 billion Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing, and Services, operating across multiple geographies. A strong, customer-focused approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

* Project Classification

Classification	Significant	Large	Major	Mega	Ultra-Mega
Value in ₹ Cr	1,000 to 2,500	2,500 to 5,000	5,000 to 10,000	10,000 to 15,000	> 15,000
