L&T Wins Orders (Large*) for Power Transmission & Distribution Business in Saudi Arabia

Mumbai, October 29, 2025: The Power Transmission & Distribution (PT&D) vertical of L&T has won a batch of grid infrastructure orders for construction of a 380 kV Substation and Transmission Lines in Saudi Arabia.

The first order pertains to the construction of a 380/33 kV Gas Insulated Substation. The scope also involves related hybrid GIS elements, 380 kV Transformers & Reactors, and subsystems for power system protection, control, automation, telecommunication, HVAC and firefighting.

The second set of orders pertain to the construction of 380 kV Overhead Transmission Links for an aggregated route length of more than 420 km.

As part of its National Renewable Energy Programme (NREP), Saudi Arabia is upgrading its electricity grid to support a surge in renewable energy projects. Transmission lines and substations are vital to scaling up and strengthening the country's overall power infrastructure.

Background:

Larsen & Toubro is a USD 30 billion Indian multinational engaged in EPC Projects, Hi-Tech Manufacturing, and Services, operating across multiple geographies. A strong, customer-focussed approach and the constant quest for top-class quality have enabled L&T to attain and sustain leadership in its major lines of business for eight decades.

* Order Classification

Classification	Significant	Large	Major	Mega	Ultra-Mega
