# L&T Secures (Ultra-Mega\*) Contract from Adani Power for 6,400MW Thermal Power for CarbonLite Solutions Business

**Mumbai, 11 August 2025:** Larsen & Toubro (L&T) has secured an ultra-mega contract from Adani Power Ltd to set up eight state-of-the-art thermal power units, each with a capacity of 800 MW, totaling 6,400 MW of new generation capacity. The order will be executed by L&T Energy - CarbonLite Solutions (LTECLS), the company's specialized business vertical for advanced power and low-carbon technologies.

The scope of work encompasses the complete design, engineering, manufacturing, supply, and commissioning of Boiler-Turbine-Generator (BTG) packages, along with auxiliaries and associated mechanical, electrical and control & instrumentation (C&I) systems.

**Mr. Subramanian Sarma, Deputy Managing Director & President, L&T,** added: "In today's dynamic energy landscape, where India's demand for reliable and affordable power continues to grow, this order from the Adani Group reinforces our role as a leading partner in building the country's critical energy infrastructure".

Adani Power Ltd, India's largest private sector thermal power producer with an installed capacity of over 18,000 MW, plays a pivotal role in meeting the nation's baseload electricity requirements. This project marks another chapter in the long-standing association between L&T and Adani Power, combining L&T's unmatched engineering and execution capabilities with Adani's vision of delivering dependable and efficient energy to millions of households and industries across India.

LTECLS is uniquely positioned to integrate deep expertise in engineering, manufacturing and project execution, with a strong focus on delivering solutions for power and low-carbon processes. Its in-house capabilities are further enhanced through collaborations with global leaders in engineering and manufacturing.

### Background:
